VMC 3010 Modular Vacuum Transports Plow Fold—Tipping –Ink Jet

Advantages to owning a VMC 3010

30" Wide Capacity (5', 5')

VMC Vacuum Transport

- Tool-Less Adjustments
- Removable/Interchangeable Transports
- Superb Performance Tracking Stability
- High Power & Stall Proof
- Automatic Vacuum Modulation
- High Efficiency
- Center Shaft Driven

Included:

- Built-in full length side guides
- Self storing vacuum bellows
- Built-in scales
- Automatic vacuum system
- Hand wheel
- Aluminum side frames
- Storage drawer
- Sealed encoder locations
- HD Leveling and caster system

TDI VMC 3010 Vacuum Transport Base

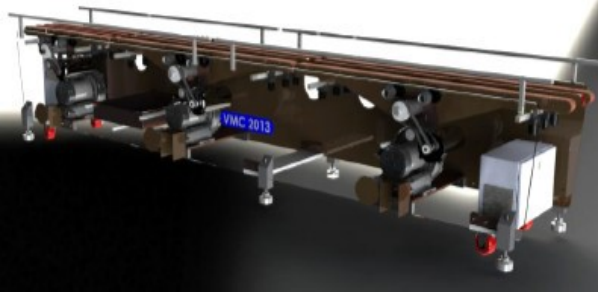

TDI VMC 3010 Vacuum Transport / Finishing Conveyor

Quality with out compromise, from the innovative vacuum system to the anodized aluminum frames. Perform quick, easy, tool-less setups - Plow folding, scanning, Inkjeting or attaching. The system is our premier conveyance line with all the length and versatility needed for multiple finishing processes.

The TDI VMC 3010 provides outstanding performance and operator versatility.

Operator controls are simple to understand and are premium quality ABB components. Quality in/Performance out. All 20" + VMC vacuum conveyors utilize operator adjustable vacuum modulation system(s).

All TDI VMC units are performance engineered to deliver an optimum supply of vacuum without stalling conveyor or stressing pump. We use regenerative vane vacuum system with pressure sensors that precisely control the vacuum pressure. All tuned from the control panel, the TDI vacuum systems are designed for the application unlike many others where blowers are used for a generic vacuum source. This is the most innovative, high performance conveyor vacuum system available.

Plow Fold Kits attach quickly, adjustable tab smasher built into design. All sheet metal is stainless steel.
